

No Fear

Girl, You lived your life like a sleeping swan,
Your time has come, To go deeper

Girl, Your final journey has just begun,
But destiny chose to leave her,

No fear, Destination darkness
No fear, Destination darkness

Girl, Rain falls down from the northern skies
Like poisoned knives With no mercy

Girl, Close your eyes for the one last time
Sleepless nights From here to eternity

No fear Destination darkness
No fear Destination darkness
No fear

[SOLO]

No fear Destination darkness
No fear Destination darkness
No fear Destination darkness
No fear Destination darkness
No fear
